

Biochemical and Molecular Engineering XIX

Poster Award Winners

Arpan Bandyopadhyay

University of Minnesota

A systems analysis of dual signaling control of conjugative drug resistance transfer in *Enterococcus faecalis*

Kevin J. Metcalf

University of California, Berkeley

An engineered secretion system for recovery of folded heterologous proteins in the extracellular space

Jamie Spangler

Stanford University School of Medicine

Interleukin-2 antibody-driven modulation of immune cell homeostasis

Thiemo Zambanini

Institute of Applied Microbiology, RWTH Aachen

Malic acid production from glycerol with *Ustilago trichophora*

Sponsors:

***Metabolic Engineering Communications*/Elsevier and Engineering Conferences International**
