

Cell Culture Engineering XV

An Engineering Conferences International Series

**May 8-13, 2016
La Quinta, California**

Outstanding Non-Student Poster Awards

Sponsored by Merck and Company, Inc.

Karin Anderson
Pfizer, Inc., USA

"Impact of culture conditions and cell age on sequence variant levels in monoclonal antibody biotherapeutics"

Kim Le
Amgen, Inc., USA

"Increasing diversity of production cell lines through miniaturization, automation and high-throughput analytics"

Jae Seong Lee
Technical University of Denmark, Denmark

"Accelerated homology-directed targeted integration of transgenes in CHO cells via CRISPR/Cas9 and fluorescent enrichment"

Erdmann Rapp
Max Planck Institute for Dynamics of Complex Technical Systems, Germany

"Improving biologics development by high performance glycoanalysis"
