

Cell Culture Engineering XV
An Engineering Conferences International Series

Outstanding Student Poster Awards
Sponsored by Merck and Company, Inc.

Dong Seong Cho
University of Minnesota, USA

"Generation of a stable pluripotent cell line from Chinese hamster embryonic fibroblasts"

Tung S. Le
University of Minnesota, USA

"Elucidating glycosylation pattern of protein produced in mammalian cells"

Daniel Ley
Technical University of Denmark, Denmark

"Multi-omic profiling of EPO producing CHO cell panel reveals metabolic adaptation to heterologous protein production"

Shangzhong Li
University of California, San Diego, USA

"A bioinformatics pipeline for studying ribosome occupancy in CHO cells"
