

Vendors that print scientific posters on fabric

As many poster presenters are hesitant to carry (or check) a poster tube, there is a growing use of posters printed on fabric. You can fold and placed these fabric posters in your carry-on luggage.

As a service to poster presenters, ECI provides the following list of vendors that will print scientific posters on fabric. ECI does not endorse any company but provides the list as a service. If you have used another vendor that has done a good job printing your poster on fabric, please send the URL to info@engconfintl.org and we will add them to our list.

MegaPrint Inc. (www.postersession.com/fabric-posters.php)

Postersmith (<https://postersmith.com/poster>)

MakeSigns (www.makesigns.com/SciPosters_About.aspx)

Scientific Poster Printing Company (www.scientificposterprinting.com/fabric-poster-printing)
